

1. K-LOVE is a great service to meet to let me know what events are going on in my local area and also to meet my needs spiritually with music that is uplifting and commercial free.
2. Our local community would lose the commercial free music, news, etc and the opportunity for a place anyone can call for prayer and references to local help in our community.
3. It is in the public interest because it is serving the public. No businesses are benefitting from the broadcast it is solely focused on the people of our community.
